Time travel is the concept of movement between certain points in time, analogous to movement between different points in space by an object or a person, typically with the use of a hypothetical device known as a time machine. Time travel is a widely recognized concept in philosophy and fiction, particularly science fiction. The idea of a time machine was popularized

Let's put it very simple:  
They tell you "how far  
something is apart  
compared to  $c$ " . time-like:  
if you are fast enough, you  
can be at (think spatial,  
like "at the festival") event  
a and at event b, it is only  
a "matter of time" until you  
see the second event.  
space-like: the two events
